REPUBLICAN RUCTIONS AND RUPTURES. If there ever was a time when the status quo

of political prosperity ought not to be disturbed, that time is now, from the standpoint of the Republican party in Missouri. Yet in practically every district where the Republicans elected a Congressman a disastrous fight has been started on him by his own party, and this within ten months of his

Instead of giving success an opportunity to take root, the Republicans find it more interesting to quarrel. Instead of permitting the new Congressmen to become bridle wise, the effort is to take them Congressman who has performed more or less good constituency, the politicians so-called prefer to oust him. Instead of allowing organization to grow up around a victory, they proceed at once to undermine the position of supremacy and do away with a word, Republican politics as now played in Missouri is actuated by a kind of monkey jealousy rather than by anything remotely approaching com-

All the "organization" in the world won't help an aggregation of scolding and chattering political acrobats whose only real desire is to make trouble. Money spent on their alleged projects is money wasted, and such confidence as the voters have accorded them is wasted. To give them victory by support at the polls and present them with offices. national, State and local, is as the casting of pearls before the proverbial quadrupeds of the shout and the curly tail. To take advantage of a situation is utterly beyond them, which fact in a short ten months is made patent to the "oters.

The Republican State Committee is taking part in the congressional "scraps," All possible effort is being made to keep them under the surface, but the outcroppings plainly tell a story of wide turbulence. The presence of Post-Office Inspectors and the rumors of investigations and charges against Postmasters in certain counties, which have an influence in congressional matters are certain indications. of the State Committee may cross swords before developments proceed much further is a probability and a decided factor in the gossip. No particular love is lost between these two; that much is a certainty. And that the head of the State Committee has nothing to lose by an attack on his successful rival is another certainty. Republican politics in a large sense is extremely likely to be waged to personal ends. Old "human nature" is an element which cannot be ignered in any kind of politics. Under the existing conditions the Republican party of this State is prone to trouble as the sparks fly upward

THE PUBLIC PRINTSHOP.

The scandals in the Government Printing Office which result in the involuntary retirement of Public-Printer Palmer are only mother illustration of the fact, already sufficiently known, that the departments at Washington need a thorough cleaning out. "Roland of Altenburg" (Stone) is a pleasant contribution to the Zenda school of romantic literature, by Edward Mott Wooliey, Esq., but with a decided qualification. Imagine the Crown Prince of Altenburg driving down Fifth avenue, incommasquerading in a gray tweed suit and a straw hat as an American citizen, as he does at the very outset of the story, grit does at the very outset of the story, you readily perceive that qualifies.
